

tesseract/tesseract
_scene_graph/include
/tesseract_scene_graph
/srdf/group_opw_kinematics.h

```
graph BT; A["tesseract/tesseract_scene_graph/src/srdf_model.cpp"] --> C["tesseract/tesseract_scene_graph/include/tesseract_scene_graph/srdf/group_opw_kinematics.h"]; B["tesseract/tesseract_scene_graph/test/tesseract_scene_graph_unit.cpp"] --> C;
```

This diagram illustrates the relationship between two source files and a common header file. At the top is a gray box representing the header file: `tesseract/tesseract_scene_graph/include/tesseract_scene_graph/srdf/group_opw_kinematics.h`. Below it are two white boxes representing source files. The left box is `tesseract/tesseract_scene_graph/src/srdf_model.cpp` and the right box is `tesseract/tesseract_scene_graph/test/tesseract_scene_graph_unit.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

tesseract/tesseract
_scene_graph/src/srdf
_model.cpp

tesseract/tesseract
_scene_graph/test/tesseract
_scene_graph_unit.cpp
