The diagram illustrates the dependencies of the `tesseract_collision` benchmark utilities. A central box at the top lists the source files: `tesseract_collision`, `/include/tesseract_collision`, and `/test_suite/benchmarks/benchmark_utils.hpp`. Three arrows point from this central box to three separate boxes below it, indicating that these three files depend on the components listed in the top box. The components are `benchmark/benchmark.h`, `Eigen/Eigen`, and `console_bridge/console.h`.
