_visualization.h

```
graph BT; A["tesseract/tesseract_ignition_visualization.cpp"] --> C["tesseract/tesseract_ignition_visualization.h"]; B["tesseract/tesseract_ignition_visualization_plugin.cpp"] --> C;
```

This diagram illustrates the relationship between three source files in a C++ project. At the top is a header file, `tesseract/tesseract_ignition_visualization.h`, which is shaded gray. Below it are two source files: `tesseract/tesseract_ignition_visualization.cpp` on the left and `tesseract/tesseract_ignition_visualization_plugin.cpp` on the right. Both source files have blue arrows pointing to the header file, indicating that they include this header.
